The students in the school radio team meet every Tuesday after lessons. Students prepare programmes about school life, daily routines, and special days. Ms Gökçen is their radio adviser. She manages and supports the team.

Ece is the leader of the radio team. She plans the programmes and helps everyone follow the plan.

Alp asks students about their school routines. He wants to learn about some school routines, like greeting teachers, following classroom instructions, and packing schoolbags before school. Canan counts the answers and presents the results in numbers. She also prepares short announcements for the school radio.

Mete interviews helpful people at school. He asks them about their roles and responsibilities. He also takes notes and gives them to Duru. She listens to the interview recordings carefully and prepares texts before broadcast. She supports Mete when he needs help.

Ece prepares a programme about a regular school day. Students greet their teachers before lessons and follow their instructions carefully. They study, read, play, and spend time with their friends. The radio team talks about these school routines and adds suitable music and sound effects to the programme.

İpek volunteers as a guide at the Republic Day exhibition. She welcomes visitors and shows them around. She also reports about the exhibition for the school radio. Your Body & Mind: A Big Team

Welcome to Teen Life magazine. Do you know that your personality, your body, and your lifestyle are all connected? They work together like a great team.

First, your personality can affect your daily habits. It is easier to plan the day for organised and tidy people. They can also stay focused and patient while studying. But the mind needs a healthy body, too. As people say, “A healthy mind is in a healthy body.”

Exercise is great for young people. When you do sports, your heart pumps more blood and your muscles get stronger. But remember, safety is important! You shouldn’t start exercising too fast because you can hurt your knees or ankles. It is better to start slowly and keep a regular pace. You should also eat healthy food to keep your body strong.

Your sports clothes are important, too. Always wear a comfortable sports kit and good trainers. After sports, take off your wet clothes and drink plenty of water.

Finally, your lifestyle connects everything. Don’t give up when you feel tired or weak. Light exercise, sports, healthy food, and good sleep can help your body and mind feel better.

Remember: Your body and mind work as a team. Take care of yourself and enjoy your life!

4. Read the sentences and match the halves.

I. Eating healthy food	V	**a.** helps you plan your day.
II. Always wear a sports kit and trainers	III	**b.** your heart pumps more blood.
III. When you do sports	II	**c.** to feel comfortable during exercise.
IV. After doing sports	IV	**d.** take off wet clothes and drink water.
V. Being organised and tidy	I	**e.** helps keep your body strong.

5. Read the text and answer the questions.

a. Why is a healthy body important for your mind?
Your mind needs a healthy body because a healthy mind is in a healthy body.

b. What happens when you exercise too fast at the beginning?
You can hurt your knee or ankle.

c. What can help your body and mind feel better?
Light exercise, sports, healthy food, and good sleep can help your body and mind feel better.

Mia: Great job, Alex! That was a 20-minute run. Let's sit on this bench under the tree and take a break.

Alex: Good idea. I'm really tired! I can feel my heart beating very fast.

Mia: That's normal after a run. Actually, this is a good example for our Health Club Project. We can add this to our health guide. Running is great for our physical health because it makes our heart and leg muscles stronger.

Alex: That's true, but it's important to run safely, too. My ankles hurt a little because I started too fast.

Mia: Oh, you should warm up before running. You shouldn't start too fast.

Alex: You're right. I'll remember that next time. What else can we add to our health guide?

Mia: Sports clothes! You need comfortable clothes and shoes when you exercise.

Alex: Definitely. I'm wearing my red sports kit and white trainers today. They're very comfortable.

Mia: Then let's add: "Wear comfortable and clean sports clothes and shoes".

Alex: The weather is really sunny and beautiful today, so we shouldn't forget about the weather! Let's write: "Always check the weather before exercising."

Mia: Good idea. We should also drink plenty of water and protect our skin from the sun.

Alex: And what about food? Exercise isn't enough for a healthy lifestyle.

Mia: Absolutely. We shouldn't eat too much junk food. We should eat healthy food and drink enough water.

Alex: Great! So, we have exercise, safety, clothes, weather and healthy food.

Mia: Perfect! Let's organise our notes. Our health guide is almost ready!
